Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

1. All of the art rejections are maintained.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-6, 9-24, 32, 33, and 35-37 are rejected under 35 U.S.C. 102(b) as being anticipated by Zhou (US 2002/0124956) substantially as set forth in the 06/22/2005 Office Action. The art rejections over Zhou have been maintained for the following reasons. Applicants' attention is directed to table 1 of Zhou. The control adhesive comprises 100% RT 2730. Zhou discloses that "while certain versions of the present invention encompass combination of an APAO and crystalline propylene only, it should be understood that other embodiments of the present invention comprise components in addition to combinations of APAO and crystalline propylene" [0031]. Therefore, the control adhesive would contain a tackifier for enhancing the adhesive property of the adhesive composition. As shown in table 1, the adhesive composition meets all the physical attributes as required by the claims, i.e., the add-on level, and dynamic peel strength within the claimed ranges. Additionally, the examiner notes that "filler" in the Markush

Art Unit: 1771

group does not necessarily exclude the "crystalline polypropylene" of Zhou from the additives as set out in the claims. Therefore, it is the examiner's position that Zhou anticipates the claimed subject matter.

4. Claims 1-25 and 32-37 are rejected under 35 U.S.C. 102(e) as being anticipated by Wang et al (US 2003/0096896) substantially as set forth in the 06/22/2005 Office Action. The art rejections over Wang have been maintained for the following reasons. The examiner notes that "filler" in the Markush group does not necessarily exclude the "syndiotactic polypropylene polymer" disclosed by Wang from the additives as set out in the claims. Therefore, it is the examiner's position that Wang anticipates the claimed subject matter.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 7, 8 and 25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Zhou (US 2002/0124956) as applied to claim 1 above, and further in view of Wang et al (US 2003/0096896) substantially as set forth in the 06/22/2005 Office Action. The same reasons set forth in the paragraph no. 3 is believed to be pertinent.

Double Patenting

Art Unit: 1771

7. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

8. Claims 1-25, and 32-37 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-15 of U.S. Patent No. 6,657,009 in view of Wang et al (US 2003,0096896) substantially as set forth in the 06/22/2005 Office Action. The same reasons set forth in the paragraph no. 3 is believed to be pertinent.

Conclusion

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be

Art Unit: 1771

calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
